REPTI SHEDDING AID

DIRECTIONS:
SHAKE BEFORE USING.
For shedding problems in snakes or lizards:
Spray Repti Shedding Aid directly onto the dry skin of your shedding snake or lizard. Rub into dry skin with your fingers for maximum penetration.
As a preventative: Once per month, or before your reptile sheds, spray Repti Shedding Aid onto your reptile and gently rub into the skin. Note: if the shedding problem in your reptile does not improve after two months of using this product, consult your reptile veterinarian.
For snakes with retained eye caps: Spray directly onto eye cap (will not hurt reptile's eyes).

INGREDIENTS:
Water, solubilizing hydrotrope, glycerin, jojoba oil and vitamin E acetate in an oil base.

REPTI SHEDDING AID

2.25 fl.oz. (64ml)

For captive pet animal use only. Keep out of reach of children.
