GB HabiStat Tortoise Table Accessory Kit – Set Up Instructions

Before setting up the Kit, you will need to build your enclosure (in accordance with the instructions).

Caution: Do not connect any electrical equipment to the mains until the set up has been completed.

Enclosure Placement: Do not place the enclosure near a heat source or near windows as this can cause temperature fluctuations.

Arcadia 2nd Generation UV Basking Lamp & Arcadia Reflector Clamp Lamp: Insert the 2nd Generation UV Basking Lamp into the Reflector Clamp Lamp and hang above the Tortoise enclosure via the 'hanging loop'. Refer to individual instructions for installation advice.

Digital Compact Thermometer: Place the thermometer probe within the basking area to provide an accurate reading.

HabiStat Tortoise Pool, Small and Medium: Use one pool for food and one for water. Ensure the pools are not placed near any heat source.

Arcadia Earth Pro Ca & Pro-A: Use the supplements when dusting greens/vegetation for consumption. Refer to feeding instructions on the packaging.

Arcadia Earth Pro Flower Boost: Feed as a dry sprinkle on top of live plant matter or re-hydrate with water. Refer to feeding instructions on the packaging.

Temperature Check: Ensure all lighting has been on for at least 30 minutes allowing the Enclosure to heat up before monitoring. Refer to your specific species care sheet for the required temperature ranges.

*Enclosed product may differ due to availability. Bedding not included please purchase separately
